CLOCKS CLK

How to buy CLK

Table of content

CL(O)(C)KS CLK

First you will need a wallet to store your CLK.
Like any other cryptocurrency, you will need a digital wallet to store it.
(CLK will run on the Polygon Network)

There are multiple wallets that support the Polygon network.

- MetaMask   https://metamask.io
- Trust Wallet   https://trustwallet.com
- Exodus   https://exodus.com
- Tokenpocket   https://tokenpocket.pro

Hardwarewallets:

- Nano Ledger X
- Safepal SI

Installing Metamask

STEP 1

- You need Google Chrome on your desktop to install the Metamask extension, Metamask Mobile App is also available on iOS and Android.

- Go to http://metamask.io and install the wallet on your device (Chrome, IOS, Android).

- There is a puzzle piece logo on the top right corner in chrome. You can see your Chrome extensions there if you click on it. MetaMask extension will appear there after you've installed the extension.
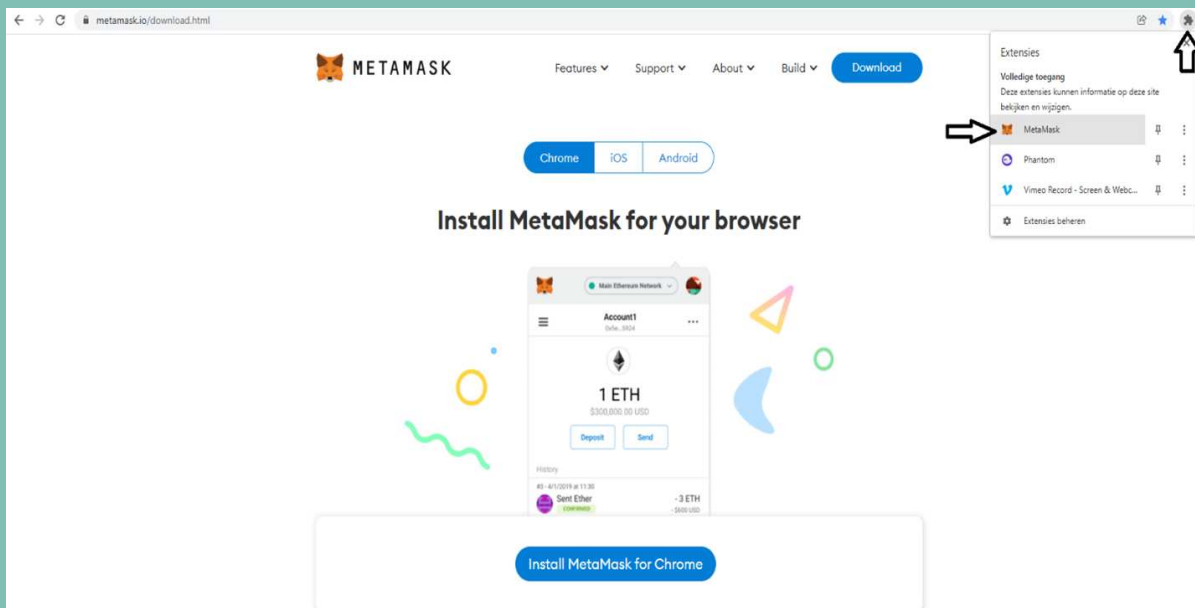

Next, proceed with the setup specified by the app, go ahead and click Create a Wallet.

Copy the backup seed phrase to a safe location (preferably not on an Internet-connected device).
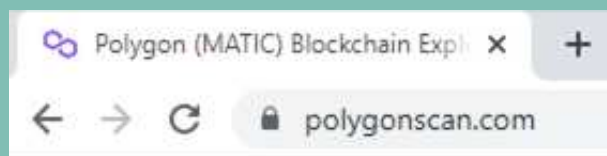

Without this phrase, your funds cannot be recovered if your device is damaged or lost. Confirm that you have made the copy on the next page.

Metamask is running on the ETH network by default, now we need to add the Polygon network.
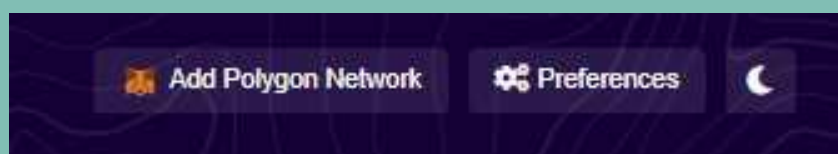

Add Polygon network ⤵

STEP 2

You can add Polygon manually or let Polyscan do it automatically.

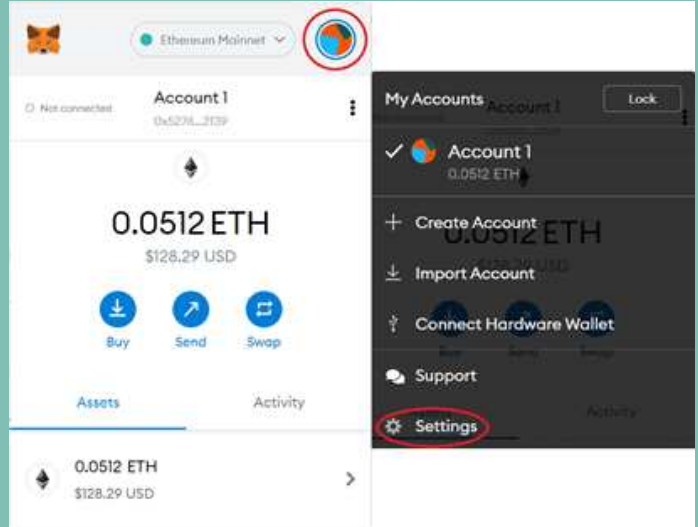

1. Go to https://polygonscan.com/ on your Desktop (not on your mobile).
2. There is an "Add Polygon Network" button on the bottom of the website.
3. Click on "Add Polygon Network", and Polygon will be installed automatically on MetaMask.
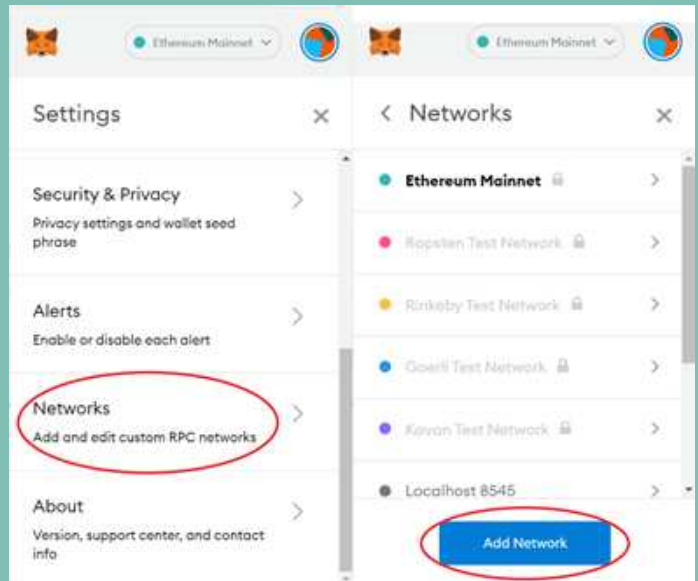

You can also add Polygon manually to MetaMask.

- Click on settings

- Click on "Networks".

- A list of connected Networks will appear now.

- Click on "Add Networks" button in the bottom of the window.

Add the network details.
In this window, you will enter the details of the network to be added. MetaMask asks you to enter: Network Name, New RPC URL, ChainID, Symbol and Block Explorer URL. To add the Polygon network, enter the following information:

- Network Name: Polygon
- New RPC URL: https://polygon-rpc.com
- Chain ID: 137
- Symbol: MATIC
- Block Explorer URL: https://polygonscan.com/

Click on "Save".

You can switch between Networks by clicking on Polygon on top of MetaMask.

Buying CLK tokens 🛒
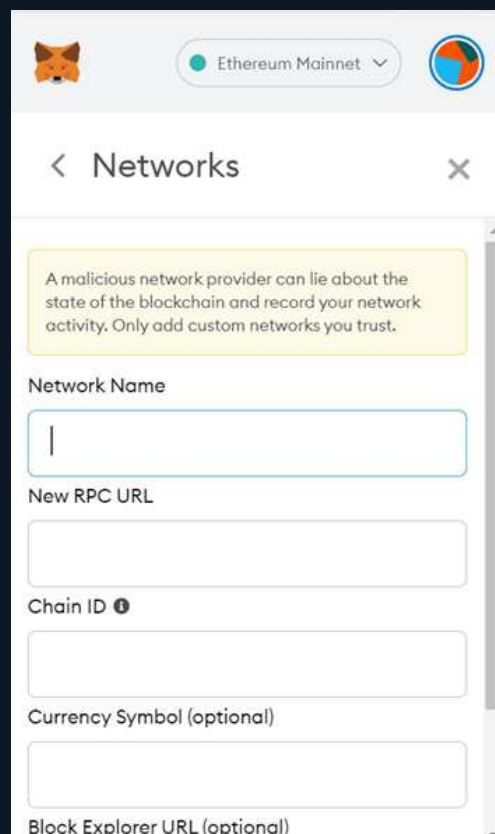

STEP 3

You can buy CLK via our website https://app.clockstoken.io
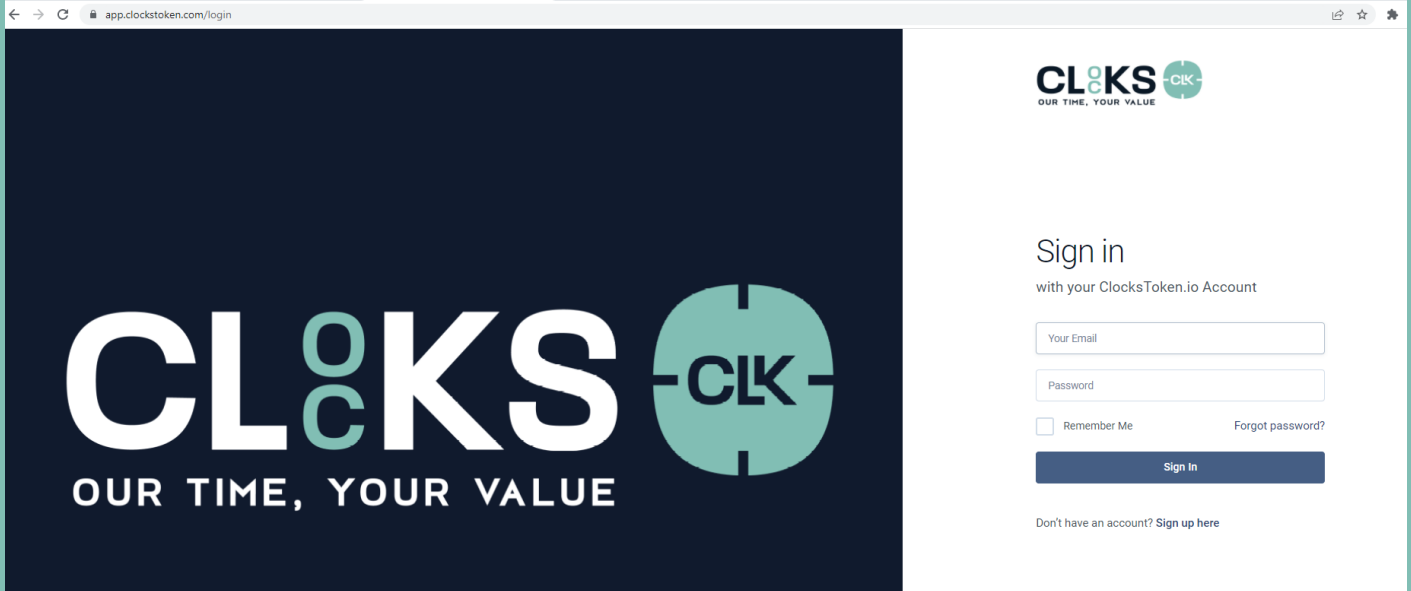

Currently CLK Tokens can only be purchased via our website.

We use Coinpayments to automatically process payments.

The tokens will be added to your dashboard on your account on app.clockstoken.io (The distribution to the wallet you have indicated will be on April 1, 2022).

Go to the website https://app.clockstoken.io

- Create an account
- Log in with your email and password

To buy CLK, you have to complete KYC verification (This is required).

Once your KYC is approved, you can start buying tokens by pressing "Buy Token Now"

number of token to buy

Enter the amount you would like to contribute in order to calculate the amount of tokens you will receive. The calculator below helps to convert the required quantity of tokens into the amount of your selected currency.

5 CLK = **499,500000** USDT

✔ 99.9 USDT (1 CLK) Minimum contribution amount is required.

+ SALE BONUS 0%	TOTAL CLK
0	**5**

Your contribution will be calculated based on exchange rate at the moment your transaction is confirmed.

Please make a payment ⎘

It is possible to buy CLK with USDT, BUSD or USDC only (we performed a test on the test-net with LTCT).

- Choose the USD stable coin you want to pay with.
- Enter the amount of CLK you want to buy.
- Click on the "Please make a payment" button.
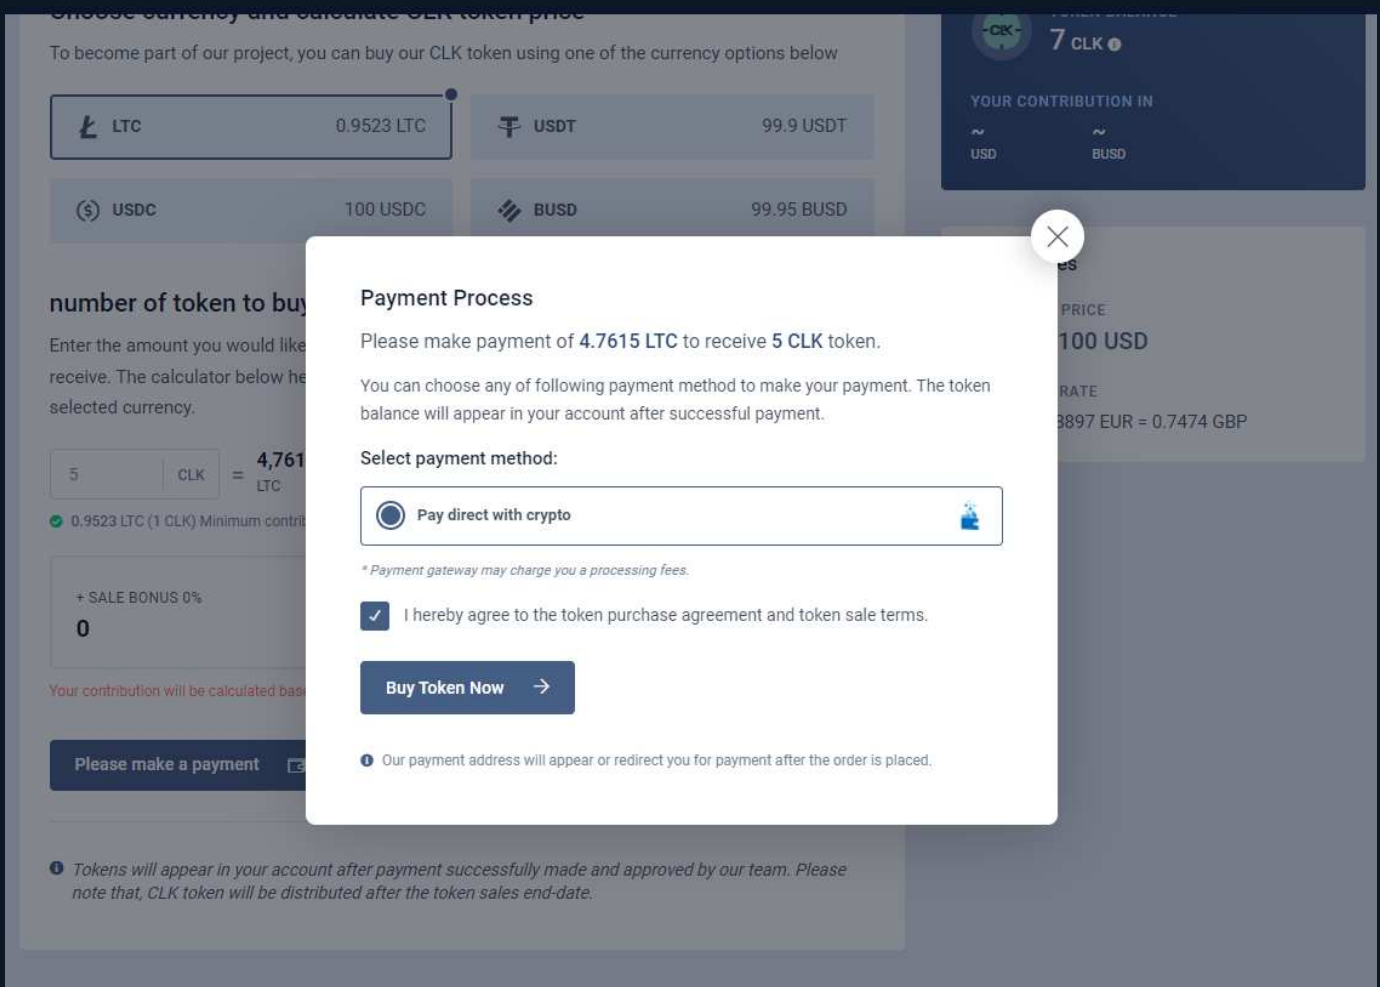

- Select "Pay direct with crypto"
- Check the purchase agreement and token sale terms (if you agree).
- Click on the "Buy Token Now" button.
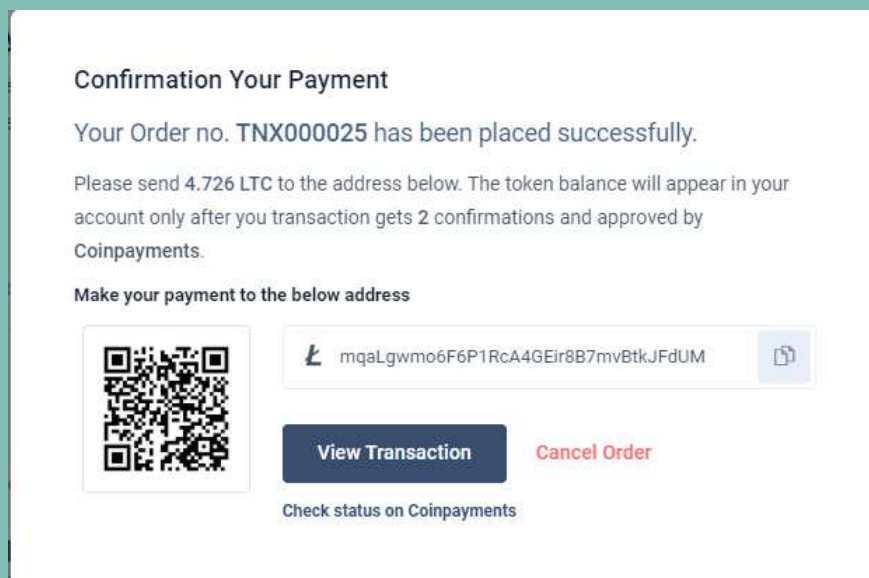

You have to make the payment to the address that is shown in this window.

The supported coins and networks are:
- USDT – TRC20
- USDC – BEP20
- BUSD – BEP20

You can send funds from any exchange or wallet that supports these networks.

(Make sure to send exact required amount of funds for a successful payment.
E.g.: If you have to pay 100 USDT, make sure to send 100 USDT. Check if the exchange reduces the fee from your balance or from the amount you are sending)
